

Roughrider Electric Cooperative offers members CONSERVATION AND ENERGY EFFICIENCIES INCENTIVES

Roughrider Electric is continuing the conservation and energy-efficiency program through 2024. The incentives are designed to help you, the member-owner, become more energy efficient.

The program will include Ground-Source and Air-Source Heat Pumps.

Qualifying systems must be purchased and installed between Jan 1, 2024 and Dec 31, 2024.

The program for the heat pumps is for new installation or for replacement of a conventional heating system.

Roughrider Electric personnel will do a check on the installation and obtain appropriate documentation and receipts. Once completed and approved, Roughrider Electric will send a check directly to you to help defray the purchase cost.

A maximum dollar amount has been set aside for the incentive program. When this amount has been met, the program will close. Roughrider Electric reserves the right to cancel the program without further notice. One rebate allowed per member.

For more information, please contact Brad Quenette, Member Services Manager at 800-748-5533 or e-mail: bquenette@roughriderelectric.com

Heat Pump must meet the following minimum requirements.

Ground- Source Heat Pumps:	\$150 per ton with a maximum rebate of \$600
Required minimum efficiency	CLOSED LOOP: EER \geq 16.1 COP \geq 3.1 OPEN LOOP: EER \geq 20.1 COP \geq 3.5

Air-Source Heat Pumps:	\$100 per ton with a maximum rebate of \$400
Required minimum efficiency	HSPF \geq 8.5 EER \geq 12.5 SEER \geq 15

Must provide receipt and AHRI Certificate of Product Ratings. Your heating contractor should be able to provide this certificate for you. www.ahridirectory.org
