

Heat Pump Rebates 2021

Roughrider Electric is continuing the conservation and energy-efficiency program through 2021. The incentives are designed to help you, the member owner, become more energy efficient.

The Program for 2021 will include Ground-Source Heat Pump and Air-Source Heat Pumps.

Qualifying systems must be purchased and installed between Jan. 1, 2021 and Dec. 31, 2021.

The program is for new installation or replacement of a conventional heating system or replacement of existing heat pump.

Roughrider Electric personnel will do a check on the installation and obtain appropriate documentation and receipts. Once completed and approved. Roughrider will send a check directly to you to help defray the purchase cost.

A maximum dollar amount has been set aside for the incentive program. When this amount has been met, the program will close. Roughrider Electric reserves the right to cancel the program without further notice. One rebate allowed per member.

For more information, please contact Brad Quenette, member services manager at 800.748.5533.

Heat pump must meet the following minimum requirements.

Ground-Source Heat Pumps	\$150 per ton with a maximum rebate of \$600		
Required Minimum Efficiency	EER	COP	
Closed Loop	>= 14.1	>= 3.3	

Air Source Heat Pumps	\$100 per ton with a maximum rebate of \$400		
Required Minimum Efficiency	HSPF	EER	SEER
	>= 8.2	>= 12	>= 14.5
